5 POWERFUL ANGEL PRAYERS

The Angels have given me these prayers. I’m happy to share this wonderful gift with you. These prayers work! Angels are non-denominational. Regardless of whether you have a religious affiliation or not, they are delighted to help you.

Since I was 5 years of age, I’ve been in communication with the Angels on a daily basis. In all these years, they have never let me down. They will do the same for you, if you are willing to work with them.

There is an old African proverb that states, “When you pray, move your feet.” This means it will not work to demand, beg or plead for what it is we desire. Come to the Angels with an attitude of thanks. All that’s required is that you hold the gentle thought, “What I am asking for is already done.”

As you say your prayers and think of your request, let it go with gratitude and love. Know that God and the Angels are already working on your behalf.

Perhaps the most important component is to pay attention to the messages you receive from God and the Angels. Whenever you pray sincerely, you will receive messages as to what to do next to bring about your desires. You must follow those messages and act on them immediately. If you do, you will be lead in the shortest amount of time to what it is you are seeking.

Messages will come in different ways for each of us. For some, it will be in a dream. Others may just hear an inner voice. Some may simply have an inner knowing of what to do next. These are some examples of how Angels communicate with us.

Work with them you must. It’s not enough to pray and then sit on your couch expecting a bag of gold to drop from the ceiling into your lap. Angels are your greatest allies. They will never let you down. Follow their lead.

Onward and upward! I look forward to hearing great news from you!

Love,

George

BLESSED YOUR FOOD & WATER

How many times have you said to yourself, just before you’re about to eat or drink something, “I know this is going to make me fat”, or “If I keep eating this I’m going to ruin my health”, or “I wonder if this water is contaminated?”

What you are actually doing is cursing yourself, your food and water.

How about trying a little experiment? Eat sanely and sensibly. When you are about to eat or drink, bless your food and water with the following prayers. In a short amount of time, you will feel better, more positive and your health will improve.

A friend told me that her mother lived to be over 100 years young and in relatively perfect health. She ate a lot of what we would consider junk food like fried chicken and ice cream. The difference? She was a happy person and blessed her food and drink before consuming anything. Now, I’m not advocating you eat fried chicken and ice cream every day. Use your inner wisdom, be sensible, be happy and bless what you eat and drink.

NOTE:
Say each of the following prayers either silently or out loud before you drink any water or eat any food. In doing so, you will amplify the health giving properties of them.
